Paediatric and Perinatal Epidemiology 1997, **11**, 477–479

Subject Index for Volume 11

Pages preceded by the letter 'S' refer to the supplement

Accuracy,
  of antenatal care information 105–121, 122–128
  of gestation 313–321
  of linked records 78–92
  of neonatal mortality 93–104
Alcohol,
  and birth outcome 152–166, 167–180
Amniocentesis,
  in twin pregnancy 200–213
Antenatal care,
  and birth outcome 272–286
  classification of 105–121
Arm circumference, maternal 163

Bacteriuria,
  and LBW 292–294
Bavarian–Finnish Longitudinal Study 253
Beer 152–166
Birth defects, recurrence S107–118
Birthweight, *see also* Very low birthweight
  and adult blood pressure 6–7
  and inter-country variation 298–312
  and inter-pregnancy interval S48–62
  and maternal alcohol 167–180
  and maternal smoking 140–151
  and menarche 7–8
  and paternal smoking 140–151
  of children of twin mothers 26–36
  low 287–297
    recurrence S119–129
  maternal 26–36
Bleeding in pregnancy,
  and LBW 287–297
Blood pressure in adults 6–7
Breast feeding,
  and developmental delay 441–450
  and IQ 9
  and pacifier 441–450
Breech and CS 181–199
Bronchitis 7
Bronchopulmonary dysplasia 44–56

Caesarean section 181–199
  and subsequent delivery S63–72
Cause of death 44–56
Cerebral palsy 451–460
Child abuse 247–249
Clustering, spatial 298–312
Coffee 152–166
Concordance of pyloric stenosis 407–427
Confidentiality 471
Congenital anomalies,
  and pyloric stenosis 415–416, 422–424

Damp, *see* Housing
Developmental delay 441–450
Diana Project 345–358
Diarrhoea 228–239
Divorce of parents – long-term effects 11–13
Down syndrome 428–435

ECMO trial 260–268
Epilepsy and cerebral palsy 454
Ethics 21–24, 136–138, 260–268, 380–382, 461–474
EURONIC Project 461–474

Ferritin 152–166
Fetal death, and alcohol 167–180
Folate 152–166

Galactosaemia 436–440
Gas cooking 228–239
Gestation and inter-pregnancy interval S48–62
Growth in childhood,
  and adult blood pressure 6
  and puberty 7

Haematocrit 162
Haemoglobin 152–166
  and LBW 292–294
Health in adulthood,
  and childhood circumstances 10–11
Hearing loss 333–344
Height *see also* Growth,
  adult 8
  secular trend in 8
Housing 165–166, 228–239
  and hearing loss 333–344
  and rheumatic fever 322–332
  damp 232–238

Imprinting, genomic 151
Income 152–166, 298–312
Infant mortality,
  and alcohol 167–180
  and geographic differences 214–227
  in twins 214–227
  time trend 214–227
Infantile hypertrophic pyloric stenosis, *see* Pyloric stenosis
Infection 44–56
Infertility 247–252
Inter-generational effects 7,13, 26–36
Inter-pregnancy interval S48–62, S119–129
Intrauterine growth retardation,
  and change in paternity S41–47
  and maternal nutrition 152–166
  and maternal smoking 140–151
  and paternal smoking 140–151
Intraventricular haemorrhage 44–56

Iron 134, 152–166
Israeli Maternal Perinatal Database S23–30

Leukaemia 240–246
Linkage methods S5–22
Longitudinal cohort study 2–20
Lung function,
  and childhood circumstances 7

Marital status,
  and pregnancy outcome S31–40
Maternal age,
  and Down syndrome 428–435
  and LBW 287–297, S119–129
  and pyloric stenosis 407–427
  and subsequent obesity S130–141
Maternal height,
  and LBW 287–297
Maternal weight,
  and LBW 287–297
Maternal weight gain,
  and preterm delivery 392–406
  pattern with gestation 392–406
Maternally-linked records S1–150
Menarche 7
Methylene dye 200–213
Morbidity in childhood,
  and adult health 9–10
Morbidity, infant 228–239
Mortality,
  and CS 181–199
  of VLBW infants 44–56

National Survey of Health & Development 2–20
Neonatal mortality,
  accuracy 93–104
  adjustment for birthweight 385–391
Neurotoxicology 131
Non-compliance and birth outcome 271–286
Non-parametric modelling 385–391
Nutrition,
  infant 249–250

Obesity S130–141
Otitis media 228–239
Overcrowding 228–239, 322–332, 333–344

Pacificer 441–450
Parental education,
  and hearing loss 333–344
Parity,
  and pyloric stenosis 407–427
Past obstetric history,
  accuracy of 78–92
Paternity change,
  and IUGR S41–47
pH 44–56
Pneumonia 7
Pre-eclampsia,
  and LBW 287–297
Premature rupture of membranes,
  recurrence S96–106
Prenatal care, *see* Antenatal care
Preterm delivery,
  and cerebral palsy 451–460
  and maternal smoking 140–151
  and paternal smoking 140–151
  infant morbidity 228–239
Psychiatric symptoms in adults,
  and childhood circumstances 11–12
Psychomotor development 359–373
Puberty 7
Pyloric stenosis 407–427

Quality of life 133–134

Race,
  and Down syndrome 428–435
  and pyloric stenosis 407–427
Record linkage 78–92
Recruitment 345–358
Respiratory distress syndrome 37–43
Response bias 240–246
Rheumatic fever 322–332

Schizophrenia 8–9
Screening for galactosaemia 436–440
Season of birth,
  and pyloric stenosis 414, 421–422
  and SIDS 57–66
Sex ratio,
  in pyloric stenosis 411–412, 417–419
SIDS 57–66, 67–77, 214–227, S84–95
  and maternal smoking S84–95
  and parental smoking 67–77
  and season of birth 57–66
  and sibling birthweight S84–95
Smith–Lemli–Opitz syndrome 407–427
Smoking maternal,
  and fetal death S73–83
  and LBW 287–297, S73–83
  and LBW recurrence S119–129
  and neonatal death S73–83
Smoking, parental,
  and birthweight 140–151
  and intrauterine growth retardation 140–151, 152
  and preterm delivery 140–151
  and SIDS 67–77
Social class,
  and LBW 292–293
Socio-economic deprivation 322–332
Speech development 8
Statistical methods 129–131, 131–133, 374–376
Stillbirth, *see also* Fetal death after amniocentesis 200–213
Sudden infant death syndrome *see* SIDS

Thyroid function,
  maternal 250–252
Time trend,
  in cerebral palsy 451–460
  in Down syndrome 428–435
  in pyloric stenosis 407–427
Twins,
  and pyloric stenosis, 414–415, 422

birthweight of 26–36
gestation of 26–36

Very low birthweight,
and CS 181–199
causes of death 44–56

Vitamin A 152–166
Vomiting 228–239

Weight gain,
maternal 152
Wine 164

Work in pregnancy, 163
and LBW 292–293
